## Affordable Rental Housing in Postville

The Nunatsiavut Housing Commission offers the Affordable Rental Program within the Labrador Inuit Land Claims Area in recognition of the need of households with low and fixed incomes for flexible rental housing with fixed costs and utility supports. The target demographics of this program are Inuit who are low and moderate-income, and especially seniors (55+), youth, families, and individuals who can live independently, and/or those living with or at risk of homelessness, disabilities, violence at home, and/or are facing the separation of children due to an inadequate housing assessment.

The NHC is now accepting applications for the following property:

- **11A Husky Drive, Postville**

Anyone may apply for this unit; however, demand will exceed supply of available housing and an application is not a guarantee of assignment. Selection of successful applicants will follow the NHC policies, and preference will be given to those who most completely meet the target demographics of the program eligibility. In the event that you are not selected for the above units, you will be added to the NHC waitlist for future availabilities.

The application round for this unit is now open, effective immediately upon publication of this notice. Applications will be accepted for 30 days (**close date of March 25<sup>th</sup>, 2023 at 11:59 pm**). A copy of the Application form is available at every NG office front desk. PDF copies may be obtained by email through the Director of the NHC (contact below).

Applications can be submitted through the following means:

- Emailed to the Director of Housing at [Brenna.jarrar@nunatsiavut.com](mailto:Brenna.jarrar@nunatsiavut.com);
- Mailed to P.O. Box 2760, Station B, Happy Valley-Goose Bay, NL, A0P 1E0 (postdated to the deadline, anything mailed afterwards will not be accepted for this particular call);
- Dropped off in-person to your local Community Liaison Officer. (For a complete list of names and contact information, please contact Brenna Jarrar).
