For Immediate Release

COVID-19 support programs being suspended pending review

Beneficiaries of the Labrador Inuit Land Claims Agreement are advised that, effective immediately, all Nunatsiavut Government COVID-19 emergency relief programs have been suspended, with the exception of the provision of cleaning supplies within the Labrador Inuit Settlement Area.

Nunatsiavut Government staff is currently re-evaluating all programs, with the goal of making improvements to ensure efficient and effective delivery of future emergency relief initiatives to eligible Beneficiaries. Some of the existing programs may be either revamped or discontinued, while others may be developed. An announcement on future programming is expected before the end of October, following the completion of the ongoing review.

The Nunatsiavut Government appreciates the understanding and patience of Beneficiaries as we strive to improve and enhance COVID-19 relief programs and initiatives.
