

Nain Airport- Information Session

The Nunatsiavut Government is planning to build a new certified airport for the community of Nain. An information session on the project will be held on November 2, 2022, at the Nunatsiavut Government Administration Building in Nain.

The new airport will replace the existing infrastructure that is currently under stress from the impacts of climate change. Studies have determined that the existing runway is unsafe and cannot be expanded or upgraded. This project is presently at the stage of feasibility studies, which are expected to be completed by June 2024. A total of 12 feasibility studies will be conducted, of which three have been completed.

This information session will provide a brief presentation of past, current and future studies completed around the project and will allow time for the public to ask questions.

Date: November 2, 2022

Location: Nunatsiavut Government Administration Building: Downstairs Boardroom

Time: 6:30 pm- 8:00 pm
