Energy Savings for your business is NEER!

Apply to the Nunatsiavut Energy Efficiency Retrofit (NEER) Program

2024 Commercial Application

The Nunatsiavut Government (NG) is introducing the Nunatsiavut Energy Efficiency Retrofit (NEER) Program. This program aims to reduce greenhouse gas emissions in the five (5) Nunatsiavut communities and improve energy efficiency and air quality on a community scale.

NG is accepting applications from registered Inuit-owned business owners interested in improving the energy efficiency of their enterprise. Approved applications will receive a **free energy audit** by a Certified Energy Auditor (CEA). These audits will follow ASHRAE Level 1 Guidelines which involves a trained professional evaluating your building's systems and highlighting inefficiencies and opportunities for improvement. After the audit is completed, the team will consult with you on what opportunities best suit your business. If your business is eligible and qualifies for this program, you could be entitled to **up to \$50,000** in Energy Efficiency Upgrades.

The program is available to **registered Inuit business owners** who are Beneficiaries in the Labrador Inuit Settlement Area. The facility must be a stand-alone building that is in operation for more than 6 months in a year, and reside in the Inuit Communities of Nain, Hopedale, Postville, Makkovik, and/or Rigolet.

Only the owner of the business can complete this application; if you do not own the business, you are not eligible to participate in this program at this time.

Applications for this program will be accepted from **May 8 to July 10, 2024**.

All required application documents can be submitted to your Local Community Liaison Officer or sent to NGretrofit@nunatsiavut.com

If you have any questions or need help when filling out this application, please contact:
Jamie Hewlett (1-866-922-2942 ext 280) or Stuart Michel (1-709-947-3558).

Nunatsiavut Energy Efficiency Retrofit Program – Commercial Application

Please note that for eligibility in this program, an energy auditor must visit your dwelling to conduct an ASHRAE level 1 energy audit to determine potential upgrade opportunities. Energy audits will be undertaken in the summer and fall of 2024. Installation contractors will be available in 2025 to complete upgrades identified in the businesses approved for financial contributions from NG.

Do you consent to an energy advisor entering your building at an agreed upon date and time?

Please note: “Yes” is required to advance with the application.

Yes No

To the best of your knowledge, is all information included in this application true?

Yes No

Date: _____

Applicant’s Signature: _____

All required application documents can be submitted to your Local Community Liaison Officer or sent to NGretrofit@nunatsiavut.com
